The decision to use callsigns 9A28 not for political reasons.

Finally, everyone can have their opinion.

Dear friend OZ1OXQ,

I really see no problem in this call sign and I do not know why you are so worked up when we celebrate. Special signs 9A28 * will be valid for the period from 01.07. - 31.12. 2013 years for a special occasion a degree of Croatian accession to the European Union ...

I really do not see what the problem is regarding the special character that marks something ...

Politics - Religion ... you're wrong thick ... We are amateur radio and as you have here amateur radio with 50 or more years of amateur experience and do not think that this is wrong.

On the contrary, I am of the same opinion, and I as a manager for graduation that one should not exaggerate the policy positions or actions, but this is no politikjanstvo than pure celebration of a beautiful start of something new ... whether you're in the band over the years and watching you many prefixes occasion that any holidays summit anniversary of the victory in the second World War II etc etc .. whether and to politics In my opinion you're wrong but allowing such thinking, and he's entitled to his view, which I respect ...

With his amateur work does not offend anyone in fact promote their country in the world and we want to many fans diploma, prefixes do more and win our degree, the new QSL card and to continue to hang out in the spirit HAMSPIRITA ...

Regardless of your views but your division in Eastern Europe and the countries of Eastern Europe and the other pulls on politicking .. It should not be this hobby ...

I am an amateur 34 years old and I think this division is more like politicking than our work with 9A28 * prefixes.

You will want to whether or not to work 9A28 * prefixes as for me QSL card you get if you hear.

In ur qrz.com profile, u write:

Special callsign celebrating entry of Republic of Croatia into full membership of European Union as 28th member from July 1st *till December 31st 2013.*

Will u promise u are only member in 6 month?

PSE tell me, why do u include politics in ham radio?

I have been licensed in 50 years and from the beginning I learned that religion and politics are not wellcome in ham radio.

Why are u from East Europe so different from normal acktion?
